

MUHAMMAD ANAS

MERN Stack Developer

riazanus568@gmail.com • (034)22155047 • [linkedin](#) • [github](#)

Proactive and results-driven MERN Stack Developer with 8 months of hands-on experience building scalable, full-stack web applications. Proficient in React.js, Next.js, Node.js, MongoDB, and Prisma, with a strong focus on clean UI design and backend performance. Eager to contribute to innovative projects and grow within a dynamic development team.

EDUCATION

UOK UBIT, Karachi	2025
<i>Undergraduate BS Software Engineering</i> CGPA 2.9	
SMIT, Karachi	2023
Certified Mern Stack Developer	

PROFESSIONAL EXPERIENCE

Virtuosoft, Karachi	Nov-2024 Present
<i>MERN Stack Developer</i>	
- Developed Tutor Nest, a multi-tenant tutoring platform with real-time messaging, reducing communication delays by 40%. - Built scalable architecture using Next.js, TypeScript, Prisma, and Context API for efficient state management. - Managed the app's color theme from the backend and integrated its API with Context API, passing props to each component. - Managed dynamic theming and role-based access to improve user customization and security. - Led the development of Tutor Nest, optimizing tutoring workflows with an intuitive UI and backend automation.	
K-Electric, Karachi	Aug-2024 Sep-2024
<i>MERN Stack Developer Intern</i>	
- Built a role-based user authorization system using React.js, Express.js, and MongoDB. - Developed an admin dashboard for secure task assignment and employee status tracking - As a result, the company experienced better task management and improved system security. - Enhanced employee management with role-based access for secure task assignment and status tracking. - Developed a login/signup API where admin can access all employee details and check their status (active/inactive).	
VLD Solution, Karachi	March-2024 July-2024
<i>Front End Developer Intern</i>	
- Built a travel app with React.js, Tailwind CSS, and Ant Design for a responsive user experience. - Users are provided with the ability to search for flights and hotels. - Created user profiles and a login feature, allowing users to track their bookings. - Implemented real-time updates and notifications to keep users informed about their bookings. - Ensured smooth UX with dynamic content and real-time feedback mechanisms.
