PROFESSIONAL EXPERIENCE

Virtuosoft, Karachi

Dec-2024 Present

MERN Stack Developer

- Developed Tutor Nest, a multi-tenant online tutoring platform with real-time messaging, reducing communication delays by 40%.
- Built with Next.js, TypeScript, and Prisma to ensure high scalability, performance, and efficiency.
- Managed the app's color theme from the backend and integrated its API with Context API, passing props to each component.
- Enhanced employee management with role-based access for secure task assignment and status tracking.
- Led the development of Tutor Nest, optimizing tutoring workflows with an intuitive UI and backend automation.

K-Electric, Karachi

Aug-2024 Sep-2024

MERN Stack Developer Intern

- Developed a user authorization app with React.js, Express.js, and MongoDB, implementing role-based access control for better security.
- Created an admin dashboard to assign tasks to employees in the application.
- As a result, the company experienced better task management and improved system security.
- Enhanced employee management with role-based access for secure task assignment and status tracking.
- Developed a login/signup API where admin can access all employee details and check their status (active/inactive).

VLD Solution, Karachi

March-2024 July-2024

Front End Developer Intern

- Built a travel app with React.js, Tailwind CSS, and Ant Design for a responsive user experience.
- Users are provided with the ability to search for flights and hotels.
- Created user profiles and a login feature, allowing users to track their bookings.
- Implemented real-time updates and notifications to keep users informed about their bookings.
- User experience by keeping them updated during the booking process.

PROJECTS & EXTRACURRICULAR

YouTube MERN Application

YouTube MERN Application is a full-stack web app built using MongoDB, Express, React, and Node.js that mimics core YouTube features. It allows users to upload, view, like, and comment on videos in real-time. [link](#)

School Mangement System Full Stack Application

Full Stack Application is a web-based platform designed to manage students, teachers, classes, attendance, and communication efficiently. Built using technologies like React, Node.js, Express, and MongoDB, it simplifies academic administration [link](#)
