PROFESSIONAL
SUMMARY

Software Engineering undergraduate with expertise in Next.js, TypeScript, and Prisma. Passionate about building scalable web applications and real-time systems. Seeking a remote MERN Stack role to contribute to high-performance applications and multi-tenant platforms.

SKILLS

- React.js
- Tailwind CSS
- MongoDB
- Node.js
- Prisma
- Next.js
- Ant Design
- PostgreSQL
- Express.js

WORK HISTORY

MERN STACK DEVELOPER 11/2024 to Current
VIRTUOSOFT

- Developed Tutor Nest, an online tutoring management system that seamlessly connects students, teachers, and parents
- Implemented real-time messaging, reducing communication delays by 40%
- Designed a multi-tenant architecture for efficient data segregation
- Implemented seamless real-time communication, efficient session scheduling, and robust user role management for enhanced platform functionality
- Build with Next.js, Typescript, Prisma ensuring exceptional scalability, performance, and efficiency
- Engineered a robust multi-tenant architecture for seamless and secure data management across diverse user groups

MERN STACK DEVELOPER INTERN 08/2024 to 09/2024
K-ELECTRIC

- Developed a digital user authorization application using React.js, Express.js, and MongoDB, implementing role-based access control for enhanced security
- Spearheaded digital UI enhancements and front-end optimizations, elevating performance and user experience for internal company applications
- Working with the backend team to integrate dynamic components, boosting user experience

- Prioritized scalability, security, and efficient database management

INTERN 08/2024 to 09/2024

VLD SOLUTION

- Engineered a dynamic travel website with intuitive navigation and engaging visuals, increasing user engagement by 40% in the first month
- Implemented responsive design ensuring smooth functionality mobile and desktop devices
- Focused on user engagement with soft colors, elegant typography, and effective CTAs

EDUCATION

UOK UBIT

BE, Software Engineering, Expected in 09/2025

Courses included Data Structures, Algorithms, Computer Architecture, Operating System and Software Engineering

WEB DEVELOPMENT

SMIT, 09/2024

Offer accessible and affordable IT Skills training to empower individuals for better career opportunities in the digital economy
