

MUHAMMAD ANAS
MERN STACK DEVELOPER

03422155047 | riazanus568@gmail.com | [linkedin](#) | [github](#)

OBJECTIVE

Software Engineering undergraduate at UOK with expertise in Next.js, TypeScript, and Prisma. Passionate about building scalable web applications and real-time systems. Seeking a **remote MERN Stack role** to contribute to high performance applications and multi-tenant platforms.

WORK EXPERIENCE

VIRTUOSOFT | MERN STACK DEVELOPER

11/Nov-Present

- Developed TutorNest, a multi-tenant online tutoring platform with real-time messaging, reducing communication delays by 40%.
- Built with Next.js, TypeScript, and Prisma to ensure high scalability, performance, and efficiency.
- Engineered a secure multi-tenant architecture for seamless data management across user groups.
- Led the development of TutorNest, optimizing tutoring workflows with an intuitive UI and backend automation.
- Managed the app's color theme from the backend and integrated its API with Context API, passing props to each component.

K-ELECTRIC | MERN STACK DEVELOPER INTERN

7/2024-8/2024

- Developed a user authorization app with React.js, Express.js, and MongoDB, implementing role-based access control for better security.
- Created an admin dashboard to assign tasks to employees in the application.
- Developed a login/signup API where admin can access all employee details and check their status (active/inactive).
- This contributes by improving the company's efficiency and security.
- Enhanced employee management with role-based access for secure task assignment and status tracking.

VLD SOLUTION PVT LTD | FRONT END DEVELOPER INTERN

4/2022-6/2024

- Built a travel app with React.js, Tailwind CSS, and Ant Design for a responsive user experience.
- Users are provided with the ability to search for flights and hotels.
- Created user profiles and a login feature, allowing users to track their bookings.
- Implemented real-time updates and notifications to keep users informed about their bookings.
- This improves user experience by keeping them updated during the booking process.

PERSONAL PROJECT

RECIPE APP [LINK](#)

- Developed the front-end of a recipe app, allowing users to explore recipes and create meal plans.

WEATHER APP [LINK](#)

- A weather app providing real-time updates, forecasts, and location-based weather details.

YOUTUBE [LINK](#)

- A MERN stack app for streaming, searching, and managing YouTube videos.
